

Press Release

Win a year's free marketing competition

Today Romford BID are launching an amazing competition for Romford businesses. They have joined forces with Spend Local to offer five local businesses the chance to win an amazing **total marketing solution**. It is worth thousands, and you will get everything you need to promote and market your business locally and online like the very best do, for a whole year!

The Win Local Toolkit has made it possible, for the first time, for even the smallest business, retailer, or organisation to promote themselves like the very best do, and we have also removed the huge costs normally associated with running local and online marketing campaigns.

Imagine being able to:

- Win more local customers every week of the year
- Transform your business online and get found fast
- Build a reputation that helps you become the local trusted expert
- Build a brand that makes you stand out from the crowd
- Stay one step ahead of your competition

Darren Cox, Founder & CEO, Spend Local said "Spend Local are delighted to partner with Romford BID for this inaugural competition. They match the Spend Local ethos of community and inclusion, and being such a progressive organisation, they were the perfect fit for this exciting competition."

When commenting on the competition, BID Director Julie Frost said, "Partnering with Spend Local for this initiative has given Romford BID the perfect opportunity to engage with all our BID levy payers, in an exciting fresh new way, as well as showing that we are supporting even the smallest levy payers in the area."

Five lucky local Romford BID Members will win a total Marketing Toolkit that includes everything you need to promote and market your business throughout 2022!

To receive an application form email hello@romfordbid.co.uk Entries close on 26th November 2021 and the five lucky winners will be announced in December. Make sure you don't miss out!
